Independent Distributor Education and Training Opportunities

Distributor Support

Each Distributor begins the AdvoCare journey with a sponsor. An AdvoCare sponsor provides guidance and support as a new Distributor begins to build their AdvoCare business.

Success School

Twice a year, thousands of AdvoCare Independent Distributors from around the country gather at Success School in North Texas for celebration, education and motivation. Success School is a three-day event designed to energize Distributors about the AdvoCare business opportunity, and inform them of the company's recent accomplishments and activities, including new products and Distributor pin levels. Sessions include discussions regarding leadership and business-building strategies, as well real-life success stories from Distributors. Professional athlete endorsers, AdvoCare executives and special guests also make appearances and address topics relating to the direct selling industry, health and wellness products and entrepreneurship.

AdvoCare 360

AdvoCare 360 events address nutrition, fitness and finance – three key aspects to every person's life. During these sessions, attendees learn a 360 degree approach to increase their potential.

AdvoCare Spring Breakthrough

This event, led by AdvoCare Diamond Distributors, provides product and business training. Designed to spark success and inspire Distributors to breakthrough to the next level, these meetings feature members of the AdvoCare Scientific & Medical Advisory Board and Sports Advisory Council.

Silver Training

This training is designed to cover the fundamentals of what it takes to grow an AdvoCare organization quickly and effectively. This is a four-part series designed to take an AdvoCare business from start to the Silver level within 30 days.

The Training Room

Distributors have access to an online library of training videos led by top Distributors and Scientific & Medical Advisory Board members that address all facets of launching a business, elevating to the next pin level, learning about products and making connections with potential customers.

Ladies Alive

In today's world, there is a lot of stress related to poor health, a shortage of time and money, or simply a lost passion for life. At "Alive and Radiant," an AdvoCare Distributor-led event, women learn tangible solutions to these issues. Attendees will hear from dynamic speakers who share their inspiring journey and empower women to plan for a brighter financial future. Onsite, the AdvoCare Scientific & Medical Advisory Board doctors provide education on AdvoCare products, as well as how to look and feel your best.
