14-Day Supply

Listed below are the primary functions of each component that makes up MNS[®] E†:

Thermogenesis/Energy* (Thermo P): This unique formulation of herbal ingredients helps increase energy, as well as support metabolic efficiency and appetite management.* The oolong tea extract found in this product contains catechins to help promote cellular metabolism and aid in feeling more energized and vibrant.* The sustained energy that comes from taking Thermo P helps make MNS[®] E a powerful source of energy that supports a more efficient metabolism.*

Metabolic Enhancer*: This key component is a blend of herbal extracts, vitamins and minerals that helps boost the body's energy systems while assisting in appetite control.* The botanical extracts in Metabolic Enhancer support the body's ability to burn calories more effectively, as well as reduce appetite.*

CorePlex®: CorePlex is a synergistic blend of 36 vitamins, minerals, antioxidants (vitamins A, C and E) and nutrients that can help the body promote and sustain health and well being.*

OmegaPlex®: OmegaPlex contains 500mg of long-chain omega-3 fatty acids (300mg EPA and 200mg DHA) per softgel that can help support cardiovascular health, joint health and the maintenance of skin when consumed in combination with a healthy diet and exercise.*
